A5 - evoshield Thigh Protection

Evoshield thigh inserts disperse more energy than traditional foam pads and offer the thinnest protection. Designed to be placed in football pants or girdle.

Feedback: "I had a chance to use the thigh pads for the first time in our first preseason game last Friday night against the Denver broncos. I love them. They formed perfectly over my leg knee braces and were solid against collisions on my thighs. Finally a great protective product that is custom molded to fit the athlete's needs. Great product with a solid performance. Anyways thanks for the product and I have a few linemen that are interested in them also.Thanks again, Tony"

Our Price: \$34.95

Product Code: A5.. EVOSHIELD THIGH GUARDS

A130-H evoShield HourGlass Thumb Protection

Our Price: \$19.95

EvoShield Thumb Protection PROTECTION (Color Black) Hourglass shape 4.5" x 4.5".

Introduced at Spring training this year, our new thumb guards response was terrific. EvoSHIELD has engineered this product based on the feedback from professional players and trainers. With traditional plastic and foam guards, players said they had to sacrifice comfort for protection. Now players at the highest level are demanding our Wrist evoSHIELD. The most technologically advanced and comfortable guard available, the thumb guard can be formed in the glove and/or wrap of finger(s) or toe(s), so you can feel the game and not the pain. Sold Each.

A130-O evoShield Oval Thumb Protection

Our Price: \$19.95

EvoShield Thumb Protection PROTECTION (Color Black) Oval shape 5" x 4".

Introduced at Spring training this year, our new thumb guards response was terrific. EvoSHIELD has engineered this product based on the feedback from professional players and trainers. With traditional plastic and foam guards, players said they had to sacrifice comfort for protection. Now players at the highest level are demanding our Wrist evoSHIELD. The most technologically advanced and comfortable guard available, the thumb guard can be formed in the glove and/or wrap of finger(s) or toe(s), so you can feel the game and not the pain.
